

Short biographies of authors

Thieu Nguyen (BS.c) Dang Tran received his university degree from the School of Information and Communication Technology, Hanoi University of Science and Technology (Vietnam) in June, 2017. In 2012, he received the top-score student award in the Vietnamese national university entrance examinations. In 2013, he won the first prize in the 21st student Mathematical Olympiad and the 2nd prize in the 16th student Physics Olympiad organized by the Ministry of Education and Training (Vietnam). Since 2015, he contributes to several papers in international conferences and scientific journals with research topics focused on system design, policy validation and proactive scaling techniques in cloud environments. Since October 2017, he continues his study at the Department of Informatics, the Graduate University for Advanced Study (Japan).

Tu Nguyen (BS.c) Dang Tran received his university degree from the School of Information and Communication Technology, Hanoi University of Science and Technology (Vietnam) in June, 2017. In 2012, he received the top-score student award in the Vietnamese national university entrance examinations. In 2013, he won the first prize in the 21st student Mathematical Olympiad and the 2nd prize in the 16th student Physics Olympiad organized by the Ministry of Education and Training (Vietnam). Since 2015, he contributes to several papers in international conferences and scientific journals with research topics focused on system design, policy validation and proactive scaling techniques in cloud environments. Since October 2017, he continues his study at the Department of Informatics, the Graduate University for Advanced Study (Japan).

Binh-Minh Nguyen (Dipl. Eng., Ph.D.) received his Dipl. Eng. degree in Computer-Aided Design from the Institute of Automation and Information Technologies, Tambov State Technical University (Russia) in 2008 and his Ph.D. degree in Applied Informatics from the Faculty of Informatics and Information Technology, Slovak University of Technology (STU) in Bratislava (Slovakia) in 2013. Since 2008 to 2013, he worked as researcher at the Institute of Informatics, Slovak Academy of Sciences (IISAS), Slovakia. Currently, he is a lecturer, scientific researcher at the School of Information and Communication Technology, Hanoi University of Science and Technology (Vietnam). His research interests include cloud computing and scalable engineering, Blockchain, Internet of Things, distributed systems, and data analytics.

Giang Nguyen (M.Sc., Ph.D.) is a senior researcher at the Institute of Informatics, Slovak Academy of Sciences (IISAS) with research topics focused on high performance computing, artificial intelligence, data and knowledge engineering. She received M.Sc. degree in Informatics and Information Technology, Ph.D. degree in Applied Informatics from the Slovak University of Technology (STU) in Bratislava, Slovakia. She is (co-)author of scientific papers and has been participating in EU IST RTD, EU H2020 and national projects. She is a member of the IISAS scientific board, program committees and reviewer for scientific journals, international conferences and national proposals. She is also a supervisor for Ph.D. study at the IISAS and STU in Bratislava, Slovakia.
